

# Climate Change Community Response Portal, CCCRP

**fmi.fi/cccrp**

Finnish Meteorological Institute (FMI)

Finnish Environment Institute (SYKE)

Helsinki University of Technology - Centre for Urban and Regional Planning (TKK/YTK)

# 1. Introduction

1. Introduction

2. Background

3. Goals

4. Means

- CCCRP

- Climate Change E-xplained Wizard

- Climate Data and Scenarios Wizard

- Climate Impacts Wizard

- Community Response Wizard

- Training

- User and stakeholder participation

- Timetable

5. Co-operation and following phases

Climate Change  
Community Response Portal

Climate Change Explained

Data and Scenario Wizard

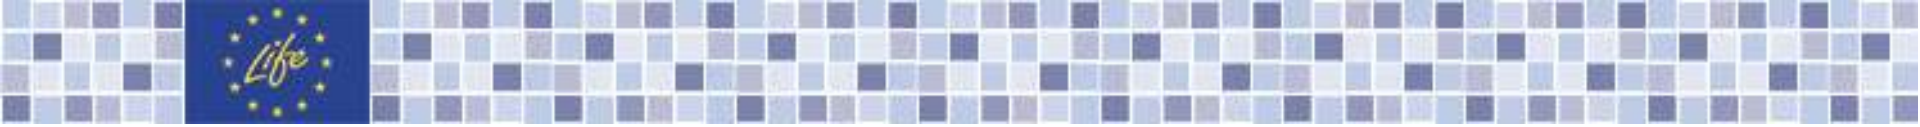

Impacts Wizard

Community Response Wizard

## 2. Background

- General awareness is high, willingness to respond is high
- Large and growing body of information available on the internet
- Quality and reliability of information is highly variable
  
- Each ministry, each research institution, each public authority has or hasn't their own methods and tools
  
- Only little national climate change communication coordination
  
- Adaptation or mitigation vs. adaptation and mitigation
  
- Risks and possibilities

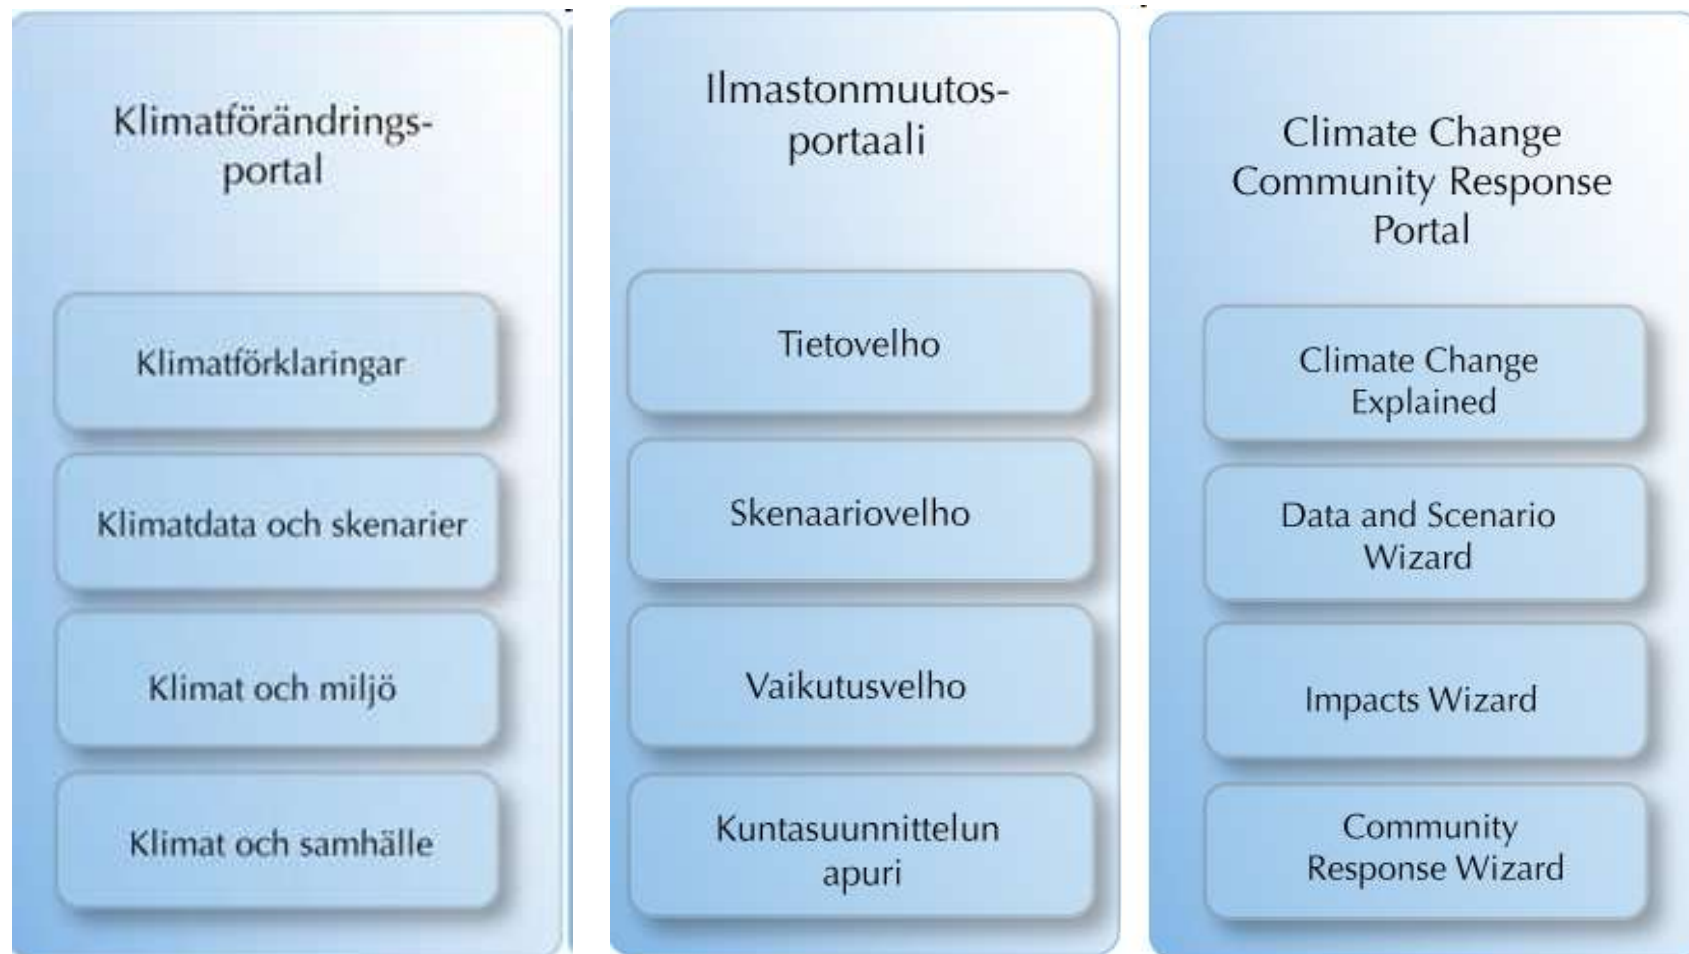

## Climate Change Community Response Portal, CCCRP

### 3. Goals

- Offers guidance and support to local decision makers
- Presents reliable and relevant information in a coherent way
- Communicates scientific information in an understandable way
- Raises awareness about global climate change and its implications for Finland
- Creates action and together-we-can spirit
- Creates common platform for the key national institutions disseminating scientific climate information
- Enables peer-to-peer and user-expert communication

## 4. Means

## 4. Means

**User participation** in design of the portal and the wizards

- Steering Committee
  - partners
  - municipalities
  - information producers
  - communicators
- pilot test group; end-users

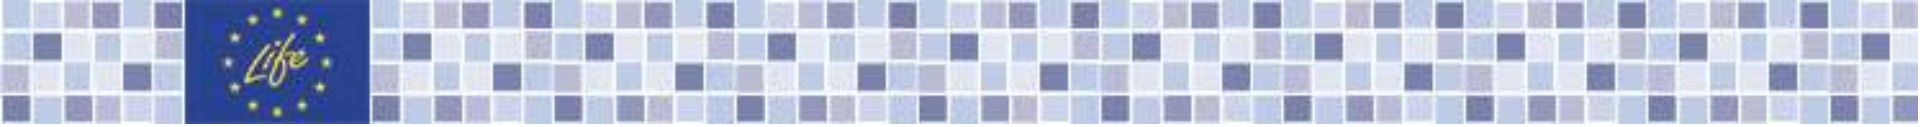

### **Training**

- end-user training sessions in the municipalities

### **Timetable:**

- 1.1.2009: start of the project
- year 2009: design phase
- May 2010: pilot version with first two Wizards released
- Dec 2010: pilot version with latter two Wizards released
- May 2011: CCCRP released (Finnish)
- December 2011: English and Swedish versions released

## 5. Co-operation and following phases

- Similar efforts internationally; a network of portal developers and web based communicators
  - UK CIP
  - eKlima, Klimatilpasning, seNorge (Norway)
  - PCCC (Netherlands)
  - Klimatilpasning (Denmark)
  - Klimatanpassningsportalen (Sweden)
  - KomPass (Germany)
- Nationally/regionally
  - new Wizards and tools by other Finnish institutions and projects
  - Journalist training
  - Teacher training
